About

SVKM Trust:

Sarva Vidyalaya Kelavani Mandal was established in the year 1919, by a Philanthropist Pujya Chhaganbha. The basic principle preached by him “કર ભલો હોગો ભલો” has been the driving force for the growth of the educational activities managed by the trust. Having started with just 6 students then, today the trust manages and runs various schools and colleges both at Kadi and Gandhinagar with more than 50000+ students being educated. Of these 50000+ students, around 8000+ students, both boys and girls, stay in the hostels being managed by the trust. The trust is being nourished by the society on the whole and managed by its alumni who occupy respectable positions in the society. The overseas Indian Community showers in donations to benefit the students for providing them better facilities for study as well as stay. The trust has always been in the fore front for provision of value based education to all the students in schools and colleges irrespective of Caste, Creed, and Religion etc.

DIGNITARIES:

Shree Vallabhabhai M. Patel

Chairman of SVKM, President of KSV & NOI Director IRFC

The dynamics of today's business and integration of global economies need a unique class of technology leaders. Thus strategic thinking, wealth creating and business acumen to compete, excel and win is amongst the salient competencies required at the middle and senior level. I am sure you are looking for technology leaders.

At VPMP Polytechnic, we have developed an environment that ensures rigor, encourages team work and expects excellence. Further, because of different disciplines with a good number of students and a regular stream of executive development programs, an atmosphere of varied cultural and corporate exposure prevails on the campus. Such an atmosphere develops in our students a thirst for innovation and a will to excel.

VPMP Polytechnic has emerged as a pioneer in providing excellence in their interest areas to its students. I would like to share this credit with all my staff members who have contributed immensely to our success. It has been their capability, dedication, diligence and loyalty towards this institution that we stand with our head held high today. VPMP Polytechnic provides friendly, informal vibrant community of learners. They have an opportunity to network; swap ideas think and evolve concepts. In today's competitive environment, full of challenge, we provide learning systems that not only integrates mastery of fundamentals with across domain competencies, but also focuses personal development and growth of our students and teach them to "believe in themselves" first before they go all out building their career.

I wish you all the best for the bright future and enlightened world ahead with the light of Education.

Dr. Prakash P. Patel

Principal – VPMP Polytechnic

We feel very happy to be a part of this establishment. We are serving here true to our potential to transform the young ones into a potential source of knowledge, energy and strength.

Education is not just a process of giving knowledge for future job but a lifelong process which creates an understanding of moral and ethical values to guide one's life and make our students the future hope of the country.

The institute has invested heavily in the infrastructure facilities, laboratory equipment's, Library books & students amenities, etc. We at the institute strive to nurture & cultivate students to become good technocrats with leadership qualities who think or go beyond conventional technical skill as per 21st century world.

We have a team of well qualified & dedicated faculty & staff members working under the guidance of a well experienced & open minded management.

Why is Diploma Engineering Best After 10th?

- ✓ **This is a 3 year technical course** which gives the student basic knowledge of engineering and practical training as per the requirement of the industry.
- ✓ **Study can be done in Gujarati or English medium.**
- ✓ There are maximum chances of getting a job immediately after completing studies. There are also good opportunities in government jobs. (e.g. ONGC, IOCL, BEIL, Railway, BSNL, GSECL, L&T, AM&NS, Amul, T&R, Reliance, TATA etc...)
- ✓ After diploma one can get involved in family business or even start one's own business.
- ✓ Immediately after completing the diploma, you can joint B.E. with the option of D2D (Diploma to Degree), can also be done or job.
- ✓ **Diploma holders can easily get admission in D to D without going through any kind of entrance exam.**
- ✓ Practical knowledge is given in Diploma while Std. 11-12 are more theory based.
- ✓ In degree engineering, the emphasis is on theory, while in diploma, the emphasis is on practicality.

After diploma, there are more opportunities for study and job abroad.

Centre for Continuing Education (GTU – CCE):

GTU has set up a Centre for Continuing Education (GTU-CCE) in the month of September 2019 with the objective of providing a platform for specialized certificate courses based on the needs of companies. As per the National Education Policy 2020 (NEP 2020), multidisciplinary learning for individuals across the sciences, social sciences, and humanities, will be increasingly in greater demand. Society needs multidisciplinary and a holistic education across the sciences, social sciences, arts, humanities, and sports for a multidisciplinary world in order to ensure the unity and integrity of all knowledge.
